Appendix – Resources

Fort the JTextField's and other java swing components used in this application the following websites were used to correctly develop code:

https://www.tutorialspoint.com/java/index.htm

https://docs.oracle.com/en/java/

To test the application the following physics calculator was used:

https://www.omnicalculator.com/physics/projectile-motion

https://www.omnicalculator.com/physics/trajectory-projectile-motion

To refresh my memory on the physics of projectile motion, the following website was used:

https://courses.lumenlearning.com/boundless-physics/chapter/projectile-motion/
